1. To connect a **Slicer** to a **Pivot Table** you have to be clicked on the pivot table.

1 / 1 point

- ☐ Yes
☒ No

✔ **Correct**

You can connect a slicer to a pivot table whilst having clicked the slicer.

2. Sean has asked you to briefly explain to him what a **Slicer** is. What is the best response?

1 / 1 point

- ☐ **Slicers** are a very complicated concept that has been added to pivot tables in the newer versions of Excel, it is difficult to understand them and they are arguably pointless.
- ☐ **Slicers** are a more efficient way of creating pivot charts and pivot tables.

☒ A **Slicer** is a filter that has been made user-friendly and now anyone can use it with ease by just clicking on what they want the spreadsheet to filter by and the pivot table and charts (dashboard) display accordingly.

✔ **Correct**

Yes, this is great explanation!

3. What options do you find under the **Options** tab which appears when clicked on a **Slicer**?

1 / 1 point

☒ **Slicer Caption**

✔ **Correct**

Yes, this is indeed in **Options**.

☐ **Change Data Source**

☒ **Report Connections**

✔ **Correct**

Yes, this is indeed in **Options**.

☐ **Field List Options**
