Q

Yes, that's right. We are going to look in detail at INDIRECT in Week 5 of this course.

3.

9

○ SPH2017

✓ **Correct**

This is a good name for this particular named range. Excel doesn't care whether you capitalise your names but it helps for readability without adding extra spaces or clutter. The name contains all the vital information you need to identify its source and purpose in the future.
